This document and the information

Alerting Resource: SP Config

Subsystem: Service-Processor

Indication Time: Wed Apr 24 14:42:27 2019

Perceived Severity: Major

Probable Cause: Configuration\_error

Description: Service Processor is not properly configured.

Corrective Actions: 1. Use the "system service-processor network modify" command to configure the network interface of the Service Processor.

2. Use the "system service-processor image modify -node cluster-01 -autoupdate true" to configure AutoUpdate feature of the Service Processor.

3. Contact the technical support if the alert persists.

Possible Effect: You might not be able to use the Service Processor to remotely access, monitor, and troubleshoot your storage system.
