## 通过GUI执行反向重新同步失败

[https://kb-cn-stage.netapp.com/on-prem/ontap/dp/SnapMirror/SnapMirror-KBs/Reverse\\_Resync\\_fails\\_t...](https://kb-cn-stage.netapp.com/on-prem/ontap/dp/SnapMirror/SnapMirror-KBs/Reverse_Resync_fails_t...)

Updated: Wed, 22 Apr 2026 08:47:53 GMT

### 适用场景

- ONTAP 9
- SVMDR
- System Manager

### 问题描述

从GUI执行反向重新同步失败

"Cannot reverse the direction of the SnapMirror relationship because the remote peer cluster <> is not capable of setting a "transfer\_schedule" on the relationship because there is a "transfer\_schedule" on the SnapMirror policy associated with the relationship. Change the configuration so that the "transfer\_schedule" is set either on the SnapMirror relationship or on the SnapMirror policy and then retry."
