

CXone Mpower EXPERT

无法删除SVM对等方

https://kb-cn-stage.netapp.com/on-prem/ontap/dp/SnapMirror/SnapMirror-KBs/Unable_to_delete_vserv...

Updated: Wed, 22 Apr 2026 04:08:28 GMT

适用场景

- ONTAP 9.10
- SnapMirror

问题描述

- 发出 `vserver peer delete` 命令后、系统将返回提示符、但不会显示任何错误、但 `vserver peer show` 此命令仍会显示对等方已启用
- EMS日志报告作业失败：

```
Job "'vserver peer delete'" [id 617] (Deleting a Vserver peer relationship between <vserver> and <vserver>) completed unsuccessfully: Remote cluster operation failed. Run cluster show on the remote cluster to verify that all nodes are healthy, wait a few minutes, and then try the command again. (1258298).
```
