

服务中断后、无法从ESXi访问NFS

https://kb-cn-stage.netapp.com/on-prem/ontap/da/NAS/NAS-KBs/Cannot_access_NFS_from_ESXi_aft...

Updated: Wed, 22 Apr 2026 07:30:38 GMT

适用场景

VMware vSphere

问题描述

如果系统崩溃导致ONTAP和ESXi之间的NFS访问中断、则ESXi主机无法重新连接到NFS 存储。尝试清理ESXi环境时、您可能会看到如下错误：

```
Cannot Unmount volume <volume name> because one or more virtual machines are still registered on it. Correct the problem and retry the operation
```
