

DNS创建失败、并显示操作超时错误

https://kb-cn-stage.netapp.com/on-prem/ontap/da/NAS/NAS-KBs/DNS_create_fails_with_operation_tim...

Updated: Wed, 22 Apr 2026 08:49:14 GMT

适用场景

ONTAP 9

问题描述

- 创建DNS服务器时、命令失败、并显示以下错误。

```
Cluster::*> dns create -vserver vserver1 -domains domain.com -name-servers  
11x.1x2.xx.xxx
```

```
Error: Failed to verify the specified DNS configuration.
```

```
11x.1x2.xx.xxx: Operation timed out.
```

```
command failed: Verify that the network configuration is correct and that  
DNS servers are available. Specify "-skip-config-validation" to skip the  
configuration validation.
```

- mgwd日志显示 `dns.server.timed.out.error`。

```
Tue Jun 27 19:28:51 08 [cluster-03: mgwd: dns.server.timed.out:error]: DNS
server 11x.1x2.xx.xxx did not respond to vserver = vserver1 within timeout
interval.
```

- 端口53已打开、从网络中的存储IP到DNS IP。
