问题描述

- 节点报告"user.group.limit.reached" error :

```
[Netapp1: mgwd: user.group.limit.reached:error]: Total number of unix-users exceeds the system limit: 65536.
```

- 添加本地用户失败、并显示"system Limit of local UNIX users readded.(已达到本地UNIX用户的系统限制)"错误

```
[Netapp1: mgwd: mgmtgwd.jobmgr.jobcomplete.failure:info]: Job "Unix User Load" [id 455713] (Unix User Load for Vserver SVM1) completed unsuccessfully: Failed to add "users from URI" because the system limit of local unix users "65536" has been reached.
```
