Updated: Wed, 03 Jun 2026 22:13:32 GMT

适用场景

- ONTAP 9
- CIFS
- NFS
- Kerberos

问题描述

由于Kerberos票证已过期、无法通过Linux用户访问CIFS共享：

```
::> event log show -message-name *secd*  
secd.kerberos.tktexpired: Kerberos client ticket has expired for vserver  
(vserver_name)
```
