适用于

ONTAP 9.5+

问题

在 EMS 中使用 LDAPS 时、SECD 遇到紧急情况并出现以下错误：

```
Fri Aug 21 05:09:16 PDT [nodename: secd: ucore.panicString:error]: 'secd: Received SIGSEGV (Signal 11) at RIP 0x806d86ec4 accessing address 0x10 (pid 67823, uid 0, timestamp 1566367572)'
```

```
Fri Aug 21 05:09:16 PDT [nodename: spmd: spm.secd.process.exit:EMERGENCY]: Security daemon with ID 67823 exited as a result of signal signal 11. The service will attempt to restart.
```
