

API调用/API/protocols /NFS/EXPORT策略失败

https://kb-cn-stage.netapp.com/on-prem/ontap/Ontap_OS/OS-KBs/API_call__api_protocols_nfs_export...

Updated: Wed, 22 Apr 2026 03:54:02 GMT

适用场景

- ONTAP 9
- REST API

问题描述

在`ruleindex` 中使用多个规则调用API `api/private/cli/export-policy/rule?vserver=svm1&clientmatch=client1,client2,client3` 时、无法提取所有记录：

```
"records": [], "num_records": 0, "_links": { "self": { "href": "/api/protocols/nfs/export-policies?rules.clients.match=client1,client2,client3&svm.name=svm1" } }
```
