### 适用场景

- ONTAP 9
- 自动化无中断升级(ANDU)

### 问题描述

在ONTAP升级期间、克隆创建作业收到以下错误：

```
Error: Volume created successfully but not mounted. Reason: Failed to create junction record for volume voll1 on Vserver vs1. Reason: Node "node2" on ring "VLDB" is offline. Check the health of the cluster using the "cluster show" command. For further assistance, contact technical support
