

mgwd/ktlsd进程崩溃

https://kb-cn-stage.netapp.com/on-prem/ontap/Ontap_OS/OS-KBs/mgwd_ktlsd_process_panic

Updated: Wed, 22 Apr 2026 04:08:30 GMT

适用场景

- ONTAP 9.11.1P1
- ONTAP 9.9.1P4
- ONTAP 9.9.1P16.

问题描述

- mgwd进程崩溃。

```
[?] Tue Jan 1 20:11:17 +0900 [node-01: vifmgr:  
vifmgr.cluscheck.badping:notice]: Cluster check ping command (/sbin/ping -i0.2  
-n -c5 -S111.111.11.111 111.111.11.111 ) failed: 1, ping: unable to open  
system.dns service: Cannot allocate memory .  
[?] Tue Jan 1 20:41:08 +0900 [node-01: mgwd: ucore.panicString:error]: 'mgwd:  
terminating, raising SIGABRT(6) at RIP 0x81e1ef58a (pid 2505, uid 0, timestamp
```

1673956628) '

```
[?] Tue Jan 1 20:50:17 +0900 [node-01: smpd: smp.mgwd.process.exit:EMERGENCY]:  
Management Gateway (mgwd) subsystem with ID 2505 exited as a result of signal  
normal exit (0). The subsystem will attempt to restart.
```

- **ktlsd**进程崩溃。

```
[?] Wed Jan 18 13:26:13 +0900 [ynetapp2-01: ktlsd: ucore.panicString:error]:  
'ktlsd: Call to pthread_create() failed with error: Cannot allocate memory,  
raising SIGABRT(6) at RIP 0x80785658a (pid 2224, uid 0, timestamp 1674015973)'  
[?] Wed Jan 18 13:29:58 +0900 [ynetapp2-01: vifmgr:  
vifmgr.cluscheck.badping:notice]: Cluster check ping command (/sbin/ping -i0.2  
-n -c5 -S169.254.69.156 169.254.20.76 ) failed: 1, ping: unable to create  
casper process: Cannot allocate memory .  
[?] Wed Jan 18 13:34:27 +0900 [ynetapp2-01: sysctl:  
boot.varfs.backup.issue:EMERGENCY]: Backup of the /var file system failed  
(/etc/netapp_common.subr: Cannot fork: Cannot allocate memory /etc/  
varfs_backup_restore: Cannot fork: Cannot allocate memory)
```
