

无法在新设置中启动 _ontap : 根卷无法正常工作

https://kb-cn-stage.netapp.com/on-prem/ontap/Ontap_OS/OS-KBs/Unable_to_boot_ontap_on_new_set...

Updated: Wed, 22 Apr 2026 11:40:12 GMT

适用于

- ONTAP 9

问题

- 节点停留在上 "Starting replication service"。
- 控制台日志显示根卷存在问题：

```
May 01 12:52:00 [localhost:monitor.globalStatus.critical:EMERGENCY]: Controller failover partner unknown. Controller failover not possible.  
May 01 12:52:49 [localhost:callhome.root.vol.recovery.reqd:EMERGENCY]: Call home for ROOT VOLUME NOT WORKING PROPERLY: RECOVERY REQUIRED.  
*****  
** SYSTEM MESSAGES **  
*****
```

Internal error: Cannot open corrupt replicated database. Automatic recovery

attempt has failed or is disabled. Check the event logs for details. This node is not fully operational. Contact support personnel for the root volume recovery procedures.
