## 无法在OpenStack中创建一致性组快照

[https://kb-cn-stage.netapp.com/on-prem/ontap/Ontap\\_OS/OS-KBs/Unable\\_to\\_create\\_consistency\\_gro...](https://kb-cn-stage.netapp.com/on-prem/ontap/Ontap_OS/OS-KBs/Unable_to_create_consistency_gro...)

Updated: Thu, 04 Jun 2026 05:24:16 GMT

### 适用场景

- ONTAP 9
- OpenStack

### 问题描述

- 在OpenStack GUI中创建一致性组快照失败。
- `waf1.sis.clone.create.failed` 在ONTAP 中出现以下错误 event log :

```
Tue Feb 21 10:25:49 +0000 [Cluster01: svc_queue_thread:
waf1.sis.clone.create.failed:info]: File clone create of clone file /vol/
openstack/snapshot-7cb39749-d016-4ae9-b0d9-xxxxxxxxxxxxx (fileid: 0) from source
file /vol/openstack/.snapshot/2dd964d5-33e1-4ad7-b1bd-xxxxxxxxxxxxx/
volume-30b1ee53-bad4-484f-a207-xxxxxxxxxxxxx (fileid: 18844) in volume openstack
failed with error:Volume is full or volume crossed automatic deletion
threshold. at line 0 with src_fsid 1055, dst_fsid 0, src_snapid 87, dir_fileid
64, type Local, category from_zapi.
```

- OpenStack中也会出现类似的错误 `cinder.log` 、用于指定所需的额外空间：

```
2023-03-14 09:41:30.085 5778 ERROR oslo_messaging.rpc.server
NetAppDriverException: Create group snapshot failed (NetApp API failed. Reason
- 28:Clone operation failed to start: Volume is full or volume crossed
automatic deletion threshold..Additional 531619192KB space is required for
clone create to succeed.).
```
