适用场景

- BMC-SP
- FAS或AFF系统
- ONTAP 9

问题描述

- 通过System Manager升级BMC映像失败、并显示以下错误

```
The SP/BMC validation failed with error: The specified package "/mroot/etc/  
tmpfw/SP_FW_308-04161_11.20.zip" is missing or invalid
```

- 从"system node image package show"确认存储库中没有软件包

```
::*> system node image package show
```
